

# LAS AUTOMATED SPEED ENFORCEMENT SERVICE

## Modern Technology to improve Community Safety

### Reduce Speed in your Neighbourhood to Keep Residents Safe

#### Program benefits

- An effective tool to enforce speed limits in targeted areas
- Designed to work with other measures such as policing, traffic calming, and education activities
- Developed by municipalities for municipalities using a CFTA compliant procurement process
- Flexible and affordable for municipalities of any size

#### Program Features

- Cameras can be easily moved between different target areas
- Turn-key service includes cameras, data handling, and ticket processing
- No upfront costs
- Short & long-term contracts available
- Multiple camera options to meet the needs of each location
- Offences processed, printed and mailed through a network of provincial offences officers
- Option to integrate Administrative Monetary Penalties

#### STOP SPEEDING IN ITS TRACKS

*“Our municipal members have been asking for an affordable way to enforce speed that provides good value, slows down motorists and improves community safety. We are thrilled to offer a program that will meet all those needs.”*

Gary McNamara, LAS Board Chair
